

The Most Stylish Form of the Sun: Siesta Sunlounger Collection

Every moment spent under the sun is precious. At Siesta Exclusive, we view outdoor spaces not just as areas, but as stages for living. Stretch out and savor the moment; because our collection is meticulously designed at the intersection of aesthetics and comfort, turning relaxation into an art form. Are you ready for an experience that rejuvenates your body and soul, accompanying your most cherished summer memories?

Shape of the Future, Comfort of Today

Defined by high-tech production and an architectural identity, the Contract series offers more than just furniture; these are design objects that add character to any space. Combining a passion for design with high durability, this series is essential for high-end projects and those seeking true aesthetic excellence.

contract

Rio Pro

A meeting of elegance and engineering. Its fiberglass-reinforced polypropylene frame merges with Phifertex® specialty mesh for superior durability. UV-protected with replaceable fabric, 5-position reclining, and hidden wheels, it is both highly functional and long-lasting.

Casablanca

Retro elegance meets modern technology. Born from the perfect blend of fiberglass-reinforced polypropylene legs and an aluminum frame, this model offers comfort with its breathable synthetic fabric. It is exceptionally durable yet lightweight, featuring large rubber wheels and a 5-position mechanism.

Tropic

Functional aesthetics. Highly resistant and lightweight with an aluminum and fiberglass-reinforced leg structure. It provides high performance for professional businesses with its replaceable breathable mesh, 5 reclining positions, and non-slip feet.

Pacific

Minimalist and robust. Features a sleek, armless design with a fiberglass-reinforced frame and breathable specialty mesh. It simplifies outdoor operations with its stackable nature, UV protection, and hidden wheels.

Slim

Industrial strength. Produced from a copolymer and fiberglass blend, its matte finish provides full protection against decay, rust, and UV rays. An enduring solution for all weather conditions, featuring hidden wheels and non-slip rubber details.

Nature-Inspired Touches

We have combined the warmth of the rattan pattern with the practicality of plastic injection technology. Adding a touch of intimacy to outdoor spaces with its natural texture, this series maintains its elegance through every season.

rattan

Fiji

Offers aesthetics with its rattan-patterned matte surface and unshakable durability through its copolymer and fiberglass structure. Resistant to fading and easy to clean thanks to its 5-position backrest, hidden wheels, and UV-stabilized body.

Pleasure for Everyone, Comfort Everywhere

Bringing together economic solutions and high-quality standards, the Garden series is a staple for every garden and poolside. It offers accessible comfort for everyone with its durable structure and timeless design.

garden

Havana

Fully compatible with outdoor conditions thanks to its special compound polypropylene structure. It carries reclining wherever it goes with its 5-position backrest and two hidden wheels for easy transport.

Bahama

A combination of special compound polypropylene raw material and tasteful design. Merges functionality with aesthetics through its stackable frame, protected leg structure, and 5 different reclining positions.

Aqua

Dynamic and durable. Compatible with all weather conditions thanks to its special compound polypropylene composition; it offers practical use for both homes and social areas with its 5-position adjustment and hidden wheels.

All our sunloungers are UV-protected, stackable, and easy to clean.

Designed to transform your outdoor spaces into relaxation havens, our collection brings together strength, aesthetics, and functionality in a single form. Visit our website to discover the unique comfort awaiting you and your guests.
